NATIONAL SOCIAL SECURITY FUND

REPORT ON ANNUAL ACHIEVEMENTS 2022 AND ACTION PLANS OF THE NATIONAL SOCIAL SECURITY FUND (NSSF)

1. INTRODUCTION

The Royal Government has implemented the social protection system in stages in accordance with the economic and social development. In 2002, the Law on Social Security Schemes for Persons Defined by the Provisions of the Labour Law was enacted and officially implemented in 2008. The scope of the Law was incomprehensive and inconsistent; therefore, the Royal Government has established a new Law on Social Security Schemes in 2019 which covers persons under the public sector, persons defined by the provisions of the Labour Law including personnel serving in the air and maritime transportation as well as domestic workers, and the self-employed. This Law is divided into 4 schemes, including Occupational Risk, Health Care, Pension, and Unemployment Schemes. This new Law is a contribution to the implementation of Rectangular Strategy Phase IV, National Strategic Development Plan 2019-2023, National Social Protection Policy Framework 2016-2025, Financial Sector Development Strategy, and Labour and Vocational Training Strategic Development Plan 2019-2023 with the same contribution in the following years.

In the year 2022, NSSF has done a remarkable work in maintaining its efforts to perform and provide benefits to its members in the public and private sectors for the Occupational Risk Scheme, the Health Care Scheme, as well as the health care implementation for informal workers through the Health Equity Fund System and the additional allowances provision to female workers at childbirth. What marked to be special and the greatest achievement of NSSF in the year 2022 is the implementation and contribution payment of Social Security Scheme on Pension for Persons Defined by the Provisions of the Labour Law on 1 October 2022, in line with the post COVID-19 plan, which NSSF has received the appreciation from all workers in both public and private sectors. At the same time, NSSF has also been conducting a feasibility study of implementing Social Security Scheme on Unemployment in the future to ensure income security, eradicate poverty, and promote social stability for workers, particularly for the people of Cambodia, in order for an ideal social security system.

These achievements have clearly reflected the development of the social protection system in Cambodia towards a universal and consistent system in securing the implementation efficiency of the above-mentioned tasks on a regular basis. NSSF strongly hopes that the annual achievements 2022 will become an efficient tool for measuring, monitoring, and evaluating the implementation of social security schemes, and is a mirror highlighting the positive and negative points as well as other challenges in order to make adjustments and present solutions for better action plans.

2. ANNUAL ACHIEVEMENTS

As of 2022, NSSF has registered a total of 21,430 formal and informal institutions/enterprises/ establishments consisting of 3,120,208 members (1,798,510 females), received contribution income of around 740,480.76 million Riels, spent around 345,900.98 million Riels on the benefits provision of Occupational Risk Scheme to 9,083 victims (4,539 females), and had a total of 3,000,040 times/persons (2,195,365 times/females) who accessed health care services.

* Occupational Risk Scheme

As of 2022, there are a total of 20,483 formal enterprises/establishments/institutions of both private and public sectors registered in the Occupational Risk Scheme, consisting of 2,842,350 members (1,754,047 females), and NSSF has received a total contribution income of approximately 142,398.50 million Riels, spent approximately 22,619.33 million Riels, and provided the Occupational Risk Scheme's benefits to 9,083 victims (4,539 females).

* Health Care Scheme

As of 2022, there are a total of 18,803 formal and informal enterprises/establishments/institutions of both private and public sectors registered in the Health Care Scheme, consisting of 3,120,208 members (1,798,510 females), and NSSF has received a total contribution income of approximately 486,761.25 million Riels, spent approximately 323,281.65 million Riels, and had a total of 3,000,040 times/persons (2,195,365 times/females) who accessed health care services.

Pension Scheme

As of 2022, there are a total of 14,352 formal enterprises/establishments of the private sector registered in the Pension Scheme, consisting of 2,584,706 members (1,646,397 females), of which the voluntary pension scheme has a total of 2,706 members (992 females) and received a total contribution income of approximately 111,321.01 million Riels.

A. STRENGTHENING AND EXTENDING THE IMPLEMENTATION OF SOCIAL SECURITY SCHEME ON OCCUPATIONAL RISK

A.1. Private Sector

A.1.1. Registration and Contribution

* Registration

Since the implementation of Social Security Scheme on Occupational Risk for workers until the year of 2022, NSSF has registered 20,448 enterprises/establishments consisting of 2,584,706 workers (1,646,397 females).

A.1.3. Benefits

Even though the number of work injuries is gradually increased, NSSF has developed work formalities and expanded a more comprehensive mechanism of benefits provision in order for workers sustaining work injuries to receive timely and efficient services.

* Benefits Claim

In the year 2022, NSSF received a total of 13,826 documents of occupational risk claims, of which there are a total of 9,273 victims (4,617 females) claiming the benefits.

Table 13: Benefits Claim

A.2. Public Sector

NSSF completely obtained the trust and confidence from the Royal Government for the past achievements, which is the reason why NSSF was given a new responsibility for implementing Social Security Scheme on Occupational Risk for public employees since 2021 until now.

A.2.1. Registration and Contribution

* Registration

Since the implementation of Occupational Risk Scheme for public employees until the year of 2022, NSSF has registered 35 institutions consisting of 257,644 members (107,650 females).

Table 21: Number of Registered Institutions and Members

| Description | Institutions | Members | Females |
|-------------------|--------------|---------|---------|

E. INSTITUTIONAL STRENGTHENING

E.1. The Governing Body of the National Social Security Fund

The Governing Body of the National Social Security Fund, appointed by Sub-Decree No. 713 SD/A dated 30 July 2020 with the Announcement Ceremony of its First Mandate Compositions on 6 August 2022, has a mission to lead and steer the NSSF work activities implementation as well as monitor the NSSF operation. In 2022, the NSSF Governing Body has organized its first mandate meetings for 6 times with outcomes as follows:

- Draft Prakas on the Formalities and Procedures of the Funerary Grant Provision of Social Security Scheme on Pension for Persons Defined by the Provisions of the Labour Law;
- Draft Parkas on the Formalities and Procedures of the Registration of Enterprises/Establishments and Workers and the Contribution Payment for Persons Defined by the Provisions of the Labour Law in the National Social Security Fund;
- Financial Report 2021 of the National Social Security Fund;
- Draft Procurement and Budget Plan 2023 of the National Social Security Fund;
- Draft Sub-Decree on the Roles and Duties of the Social Security Inspector;
- Draft Report on the Nine-Month Achievements of the National Social Security Fund;
- Approval of the Bank Partners' Request for Agreement;
- Draft Sub-Decree on Extending the Scope of Social Security Schemes on Occupational Risk and Health Care for Persons under the Public Sector.

E.2. Social Security Trustee Council

With a role in managing the social security investment, the NSSF Social Security Trustee Council is still currently under the Draft Sub-Decree.

E.3. The Medical Council of the National Social Security Fund

In the year 2022, the NSSF Medical Council has organized its meetings for 29 times with outcomes as follows:

- Checked and advised on the principles of updating the criteria of the private health facilities requesting to sign the agreement with NSSF;

- Checked and advised on the measures against natural persons or legal entities committing fraud to benefit from NSSF;
- Checked and advised on the service-level checklists of the private health facilities requesting to sign the agreement with NSSF;
- Checked and advised on the service-level checklists of the CPA2 and CPA3 private health facilities requesting to sign the agreement with NSSF;
- Checked and advised on the criteria of 35 private health facilities requesting to sign the agreement with NSSF;
- Checked and advised on Takeo Eye Hospital's request for including Avastin injection into health care benefits;
- Checked and advised on the price list of additional special services of Cambodia-China Friendship Preah Kossamak Hospital;
- Checked and advised on the Presentation on the Minimum Standards for Private Health Facilities Requesting to Sign the Agreement with NSSF;
- Checked and advised on the Presentation on the Minimum Standards of Operating Rooms, Emergency Rooms, and Laboratories for Private Health Facilities Requesting to Sign the Agreement with NSSF;
- Determined the service level of Preah Net Preah Referral Hospital.

E.4. Official Physicians of the National Social Security Fund

In the year 2022, the NSSF official physicians have organized its meeting for 36 times in order to evaluate the permanent disability degree of 1,005 victims (385 females).

| Description | Meetings | Degree Less | s than 20% | Degree Fro | m 20% Up | Total Victims | | |

E.5. Working Groups

E.5.1 Working Group on Road Traffic Safety for the Protection of Workers

In the year 2022, the Working Group on Road Traffic Safety for the Protection of Workers has organized its Internal Meeting on the Review of Draft Report on Annual Achievements 2022 and Action Plans 2023 and Other Challenges.

This Working Group on Road Traffic Safety for the Protection of Workers has investigated 13 traffic accident cases, of which there were a total of 380 injured workers (355 females), and provided them with emergency assistance.

E.5.2. Working Group on Prevention of the Workers' Cases of Fainting and Work Injuries

In the year 2022, the Working Group on Prevention of the Workers' Cases of Fainting and Work Injuries has organized its Internal Meeting on the Review of Draft Report on Annual Achievements 2022 and Action Plans 2023 and Other Challenges.

This working group has investigated 8 factories related to cases of fainting, of which there were a total of 266 unconscious workers (221 females), and provided them with improvement measures and emergency assistance. With these cases, the working group observed that the main causes of unconscious workers are as follows:

E.5.3. Information Technology Technical Working Group on Harmonization of the Registration and Social Protection Data Management System

This working group is responsible for preparing the procedures and formalities of the NSSF members identification, linking the information technology network between Police Department of Statistics and Passports of the General Commissariat of National Police of the Ministry of Interior in a bid to provide and receive data of workers' identity in Health Care Scheme, and cooperating with relevant ministries and institutions to plan and issue the Electronic Khmer Identity Cards for the NSSF members in line with the correct procedures.

Meanwhile, the working group has prepared to issue new identity cards to 3,206 NSSF members (1,695 females) in the capital/provinces, of which there are a total of 280 new cards (184 females), 778 lost cards (424 females), 297 damaged cards (50 females), 74 corrected cards (41 females), and 1,777 renewal cards (996 females).

E.6. General Support

E.6.1. Administration and Finance

* Administration

The administration plays an important role in managing documents, officials and contract staff and supplying materials in order to ensure the efficient implementation of internal regulations in accordance with the Law on the Common Statutes of Civil Servants of the Kingdom of Cambodia as well as secure high work efficiency.

✤ Budget, Finance, and Accounting

The budget, finance, and accounting of NSSF are transacted completely by banking systems, meaning that all processes of the income and expenditure management, including contribution collection from enterprises/establishments, fine payment, benefits provision to workers sustaining the occupational risks, and administrative expenses, are done through the banking systems in a bid to collect contributions, provide cash benefits, and maintain the social security reserves with the aim of ensuring efficiency and accountability. The 2022 implementation and accounting vouchers have reflected that the income sources are received from contributions of social security schemes, national subsidies, revenues from other sources, various fines, and administration management of social security benefits and operational expenses.

E.6.2. Cooperation and Human Resources Training

The cooperation and human resource training play a vital role in developing the organization and strengthening cooperation between stakeholders with national and international development partners in order to ensure the continuity of organizational implementation on designing plans, work formalities and procedures as well as improving knowledge and exchanging recent work experiences. This cooperation and human resources training also contribute to the social work development, in which the NSSF leaders and officials attended consultation meetings, workshops, training courses, coupled with both local and international study visits as follows:

| Table 65: Cooperation | |
|------------------------------------|--|

E.6.3. Information Technology

NSSF regulated the operation and management of its database through information technology for the registration of enterprises/establishments and workers, contributions payment, benefits provision, administration management, and other crucial works. In the year 2022, NSSF has accomplished the IT achievements as follows:

* Software Development

- Sage App
- NSSF Exam Program
- NSSF Scan Document Program
- NSSF Mobile App
- Central/Provincial Hospitals' Services Reimbursement Management System
- HSPIS
- APIs for Sending Enterprises' Name to the Banks
- API for Claim Mobile App
- Complaint System
- Mission Management System
- NSSF Website
- Registration and Contribution System
- Administration System

- Rehabilitation System
- Pension Scheme Management System
- Claim Mobile App
- New NSSF Benefit App
- Childbirth Allowance Management System.

* Applications Creation for Works Fulfilment

- Pilot Server for Harmonization of the Registration System and the Social Protection Digital Platform
- E-Form for Pension Scheme
- Exam Program for Customer Services Division
- E-Form for Public Employees
- APIs for New Registration and Contribution System
- New Registration and Contribution System for Enterprises
- User Account Management System
- Tuk-Tuk Drivers and Domestic Workers Registration System
- Contributions Payment Monitoring System
- APIs for Voluntary Pension Scheme.

E.6.4. Internal Audit

NSSF has strengthened the internal audit implementation at its head office and khan/provincial branches.

E.7. Education and Prevention Dissemination

E.7.1. Strengthening the Dissemination of Social Security Schemes

Table 67: Dissemination of Social Security Schemes

Source: Department of Customer Services and Public Relations

3. CHALLENGES OF IMPLEMENTATION

- The registration of enterprises/establishments and workers is not fully covered;
- The public awareness of social security benefits is still low;
- The services provision of health facilities signed the agreement with NSSF is still limited.

4. REMEDIES AND ACTION PLANS

To ensure an efficient and timely enforcement of the Law on Social Security Schemes, NSSF has determined some significant remedies and action plans as follows:

* Remedies

- To ensure the inclusive and better registration of enterprises/establishments and workers, NSSF has taken measures as follows:
 - Encourage the establishment of social security inspector in a bid to strengthen the law enforcement with high efficiency;
 - Encourage the preparation of legal instruments for extending social security coverage to the self-employed;
 - Establish the mechanism for data exchange with relevant institutions involved with the registration of enterprises/establishments in order to ensure the NSSF comprehensive registration;
 - Increase collaboration with local authorities to strengthen the registration of small and medium enterprises, particularly in the countryside;
 - Implement the online registration of new enterprises/establishments via CamDX, which is linked with those of Ministry of Economy and Finance, Ministry of Commerce, General Department of Taxation, etc.;
 - Implement the common identification system in the National Social Protection Policy Framework (Members of social security and social assistance systems);
 - Strengthen the monitoring mechanism of enterprises/establishments implementation and create an incentive program to encourage compliance;
 - Implement the penalties on enterprises/establishments which do not comply with the procedure.
- To raise the public awareness of social security benefits, NSSF plans to take measures as follows:
 - Increase a broader dissemination of social security benefits by all means;
 - Mainstream the awareness by including the topic of social security schemes that is globally regarded as human rights into the General Education Program (GEP);
 - Organize public forums and other workshops related to the implementation of social security schemes with all relevant stakeholders.
- To improve the service provision of health facilities signed the agreement with NSSF, NSSF has taken measures as follows:
 - Increase the number of agreements with health facilities based on the member density;
 - Strengthen and adjust the payment methods for health facilities;
 - Strengthen the monitoring mechanism of health facilities' agreement implementation;
 - Strengthen the monitoring and evaluation mechanism to improve the service quality of health facilities;
 - Conduct pricing research to increase services;
 - Review and improve the procedures of access to health facilities services.

* Action Plans

- > Continue monitoring and evaluating the implementation of social security schemes;
- Continue disseminating and encouraging the enforcement of the Law on Social Security Schemes;
- Continue strengthening the monitoring and evaluation mechanism of the service quality of health facilities and the behavior of physicians;
- Continue developing relevant legal instruments in order for the effective and efficient implementation of social security schemes;
- Continue providing additional allowances of the Royal Government to female workers at childbirth;
- Continue strengthening the collaboration with other countries in order to develop the social security schemes in Cambodia;
- Continue strengthening the capacity building of the NSSF officials and contract staff through various skills trainings, including both national and international workshop, in response to the organizational development.

5. CONCLUSION

Registration, contributions payment, benefits provision, occupational risk prevention, and other supports underscore an absolute result of the NSSF efforts in taking one further step after successfully implementing Social Security Schemes on Occupational Risk and Health Care; moreover, on 1 July 2022, NSSF has launched Social Security Scheme on Pension, which has been received a great support from both national and international parties. Strengthening and extending the NSSF social security schemes aim to ensure an efficient, sustainable, inclusive, and consistent services provision. This demonstrates the attention of the Head of the Royal Government and the efforts of all NSSF leaders, officials, and contract staff.

With the above achievements, NSSF has observed that there have been some challenges related to the low compliance of few employers and workers as well as the services provision of health facilities, along with some gradually resolved issues of NSSF. In relation to these, although the number of work injuries is increased compared to those in 2021, the number of severe injuries and commuting accidents will continue to grow, especially the motorcycle accidents. This is still a concerned figure, and the number of healthcare services consumption is risen by 44% in 2022 compared to those in 2021. Therefore, in order to contribute to resolving such problems, it is required that relevant ministries and institutions, national and international organizations as well as development partners continue to collaborate to develop the social security sector in Cambodia and to actively participate in taking the educational dissemination measures of work injuries prevention to the lowest level and promoting better hygienic conditions, which is a part of poverty eradication and social stability promotion. Furthermore, workers have to understand health problems and take high precaution during their work, especially while traveling, in order to avoid accidents leading to the loss of job, time, money, and life.

Phnom Penh, 8 February 2023 Delegate of the Royal Government in charge as Director General of the National Social Security Fund

OUK Samvithyea
